

## Occupational Safety and Health Consultant

*Please indicate job title in subject line of email submissions.*

### ABOUT YOU

- You have a sense that you were born for a purpose and embrace personal and professional growth
- You are passionate about workplace safety and health, and in particular helping small and mid-sized business succeed
- You have field experience, managing workplace safety and health
- You're really interested in technology and gadgets!
- The idea excites you that you can use your workplace safety experience to mentor many organizations and positively impact hundreds of workers to return home safe at the end of the workday
- You would thrive being part of a successful and innovative organization that's making its mark on the Canadian workplace safety landscape

### ABOUT US

- Inspired by purpose, 1Life Workplace Safety Solutions is a dedicated group of Safety Professionals and Software Programmers passionate about sending workers home safe at the end of the workday.
- Since 2010 we have been developing software-based solutions for small and mid-sized employers to simplify workplace safety management, increase compliance and reduce costs.
- Our vision is "To Foster Reverence for Life."
- Awards include Canadian Society of Safety Engineering "Excellence by a Group", Canadian Safety Leader of the Year finalist, Woman Entrepreneur of the Year, BBB Torch Award for Marketplace Trust.

We have an amazing office that is centrally located just a few blocks from Osborne Village at the corner of Stradbrook and Donald.

If you are looking to break out of the status quo by joining a company where you will have the freedom to put your stamp on Workplace Safety in Canada ..... **this may be the place for you.**

**The duties and responsibilities of this position include but are not limited to:**

- Develop and implement Safety Management Systems with a wide variety of clients
- Advise and coach clients to continually improve their Safety Management Systems; perform audits, gap analyses, inspections, mentoring etc.
- Develop and improve written technical documents
- Perform safety consultations with new/prospective clients
- Provide software solutions demonstrations and training for clients as it relates to the continuous improvement of their safety management
- Perform other related duties as assigned.

Key characteristics that describe you: integrity, high standards, accountability, deliver on promises, the courage to grow personally and professionally, collaborative, great communicator, coachable, optimistic, and enthusiastic

**Qualifications:**

- Minimum 3 years of progressive experience in occupational safety and health
- A post-secondary education in Safety/Risk Management. CRSP and CHSC designations are an asset.
- Strong technical acumen in the area of occupational safety and risk management
- Excellent analytic, problem-solving, and decision-making abilities
- Ability to cope under pressure in a fast-paced environment
- Self-directed, results-oriented, able to work under tight deadlines
- Ability to plan, organize and maintain attention to detail
- Excellent communication skills (written and verbal) with an emphasis on presentation and influential skills.

**What we offer:**

- An amazing corporate culture and a supportive team committed to personal and professional growth
- Dynamic, rapidly growing, award-winning company with the opportunity for advancement as we grow
- Competitive compensation and generous benefits program
- Paid parking

## Next Steps:

If you think this position may have potential for you, then send us your resume and cover letter.

In your **cover letter**, please (briefly) outline the following 4 items: (in **4 separate numbered paragraphs** please)

- Relevant qualifications and work experience in Canada
- Why you are you a good match for this role
- Your “philosophy” on safety leadership
- Your desired remuneration (ballpark)

We would like to thank all applicants in advance for their interest in us. We encourage applications from all qualified individuals and believe strongly in diversity.
